

For the most detailed; dimensional look, layer pieces according to this image (labeled S1-S7).

If you prefer a more simple approach, cut just the base (S1) of the rose stem along with the two larger leaves (S6 & S7) with embossed details to adhere on top of the stem (S1).

Finished dimensional rose using all 7 stem & leaf pieces and all 7 rose petals.

Layer rose petals starting with R1 and building up to R7.

Layer the rosebud from the stem base (B1) and then add on the two petal pieces (B2 & B3). Adhere the final leaf to the top of the petals for even more dimension!
